

FÉDÉRATION INTERNATIONALE DE ROLLER SPORTS

Rome August 5<sup>th</sup>, 2013

To the attention of:  
Presidents of FIRS affiliated Federations  
and  
Presidents of the National Olympic Committees

Ref: Launch of the Roller Games

Dear Sirs,

I have both the honor and the pleasure to introduce to you, Presidents of our affiliated Federations and Presidents of National Olympic Committees, the project that the Fédération Internationale de Roller Sports has been developing and that will create in 2017 a unique event, not only for our International Federation but also for the international sports world.

The FIRS, that manages all the Roller Sports, boasts of many different disciplines, and we felt the need to establish an event comprehending all the World Championships of every discipline in only one huge sports event: the Roller Games!

The first edition will take place in 2017 and will involve more than 3,000 top athletes and around 10,000 technicians, delegates, judges and entourage for two weeks of high-level competitions together with shows, courses and seminars for technicians and athletes.

Such an event represents also for the hosting city a unique opportunity because of its economic, social and environmental impact; the programme will be marked by the notion of clean, doping-free and based on fair play sport, characteristics that have been the trademark of Roller Sports all along.

Please, find enclosed a pamphlet that in the following months will be followed by detailed information on the concept of the event and the procedure to present the candidature to host the 2017 Roller Games.

I kindly ask you to promote possible biddings of cities that might be interested in hosting the 1<sup>st</sup> edition of Roller Games in your Nation. Sure that you will find this event highly interesting, I take this opportunity to send you my best

Sports, regards

Sabatino Aracu  
President
