To: World Skate National Federations

RE: Confirmation of the World Skate Games 2022 – Argentina

Dear President, Dear Secretary General,

Following-up to our letter dated 25th July 2022, I hereby inform you that I received an official letter from the Minister of Sports and Tourism of Argentina (here attached) confirming that the World Skate Games 2022 will be held in Argentina as scheduled.

A coordinated activity is currently being carried out between the National Government and the jurisdictions in which competitions will be held, namely the Province of San Juan, the Autonomous City of Buenos Aires, and the Municipality of Vicente L pez, with the continuous support and supervision by World Skate, with the aim to ensure that the World Skate Games are held according to the international standards required.

In the last few days, the Task Force of World Skate (whom I personally thank) worked uninterruptedly by keeping continuous contacts and holding meetings at all levels with Argentina to monitor the situation and allow to make the best possible decision for athletes, National Federations and the Organizing Committee.

I wish to particularly thank Minister Mat as Lammens for his sensibility, his support and the guarantees provided on behalf of the Government of Argentina.

The economic difficulties in Argentina remain, but we hope that the World Skate Games will represent an injection of enthusiasm and faith to a Country that is so important at an international level.

Last, but not least, I wish to thank you, our National Federations, for your understanding, patience, and support in these days.

I wish to seize this opportunity to also confirm that the Congress of World Skate will be held on October 30th, as scheduled.

In the next few days, you will receive updated information on the Competition Schedule, Accommodation, Transportation and all the other details that will allow you to organize at best your participation in the World Skate Games 2022.

See you in Argentina!

Best regards

Sabatino Aracu
